We strive to provide quality healthy family pets that represent their breed. This puppy, to the best of our knowledge, is in good health and free of communicable diseases and is of sound temperament at the time of sale. The puppy will have at least one puppy vaccination and de-wormed prior to being released to the new owner/buyer. A health record of all vaccinations and de-worming's will be provided by the Canyon's Malamute Puppies. This puppy is being sold as a family pet. Your puppy is being sold with **NO BREEDING RIGHTS/LIMITED REGISTRATION.**

**It is the Buyers responsibility to continue with a vaccination protocol that includes at least two more "puppy vaccinations" and a "rabies" vaccination. Our Veterinarian recommends the second vaccination to be given two to three weeks after the first vaccination and the third vaccination to be given two to three weeks following the second vaccination. They also recommend the rabies to be given after 12 weeks of age or older (Our Veterinarian gives rabies vaccinations at 16 weeks of age.) Further vaccinations are needed yearly.**

Please feel free to get a well puppy exam on your new puppy. Your Veterinarian may recommend a different vaccination protocol. We will replace any puppy found to have a genetic health issue – confirmed by two veterinarians - an examination in the purchaser's vicinity, selected by the seller. If you or your Veterinarian have questions, please feel free to contact us or our Veterinarian(s).

We feed Purina Pro Plan 30/20 All Life Stages or Purina ONE, SMARTBLEND, Large Breed Puppy Formula in most cases to our puppies. We recommend this puppy remain on this same food until the puppy is at least one year of age. If changes are made to the diet, please do so in small increments, so as not to upset the digestive system. Remember your new puppy needs to eat at least three times a day. As your puppy grows so will his food intake amounts. Be careful not to get your puppy to heavy, as this can affect their hips, elbows and cause other health issues.

We strongly recommend that the Buyer attend obedience classes with their new puppy and provide proper socialization opportunities for puppy. We also recommend spaying or neutering your puppy at your Veterinarians recommended dates. We feel this will make your puppy a better family pet and prevent unplanned litters.

If at any time you (the Buyer) can no longer retain possession of this dog, please feel free to notify Canyon's Malamute puppies for first option of resuming full ownership or for helping you find the dog a proper new home.

Please stay in touch with us! We love hearing how our puppies are doing and what is going on in their life and in yours.
